Career Objective

Entry-level application developer skilled in the MERN stack, Flutter, C#, and WordPress. Passionate about building scalable web and mobile applications with strong user experience. Eager to contribute to dynamic and innovative development teams.

Education

Conestoga College, Waterloo, ON

Advanced Diploma in Computer Programming – *Graduated 2025*

Brother Institute and Learning, Nepal

Diploma in Information Technology – *Completed 2020*

Professional Experience

IT Intern

Manji Software Private Limited – Dharan, Nepal

Jan 2023 – Jul 2023

- Worked with developers on MERN stack and Flutter-based projects for client-facing applications.
- Participated in daily stand-ups and code reviews, contributing frontend and backend components.
- Tested UI components and APIs, helped fix bugs, and pushed changes via GitHub.
- Gained hands-on experience in RESTful API design and MongoDB cloud integration.

Academic Office Assistant & Teacher (Computer & Math)

Sunrise English Boarding School – Itahari, Nepal

Jan 2022 – Dec 2022

- Supported academic coordination, maintained student records, and scheduled exams and classes.
- Taught Computer Science and Mathematics to middle and high school students.
- Delivered lessons on digital literacy, Microsoft Office, and foundational programming.
- Conducted math tutorials and practice sessions for exam preparation.

Administrative Assistant

Brother Institute and Learning – Itahari, Nepal

Nov 2020 – Dec 2021

- Managed front-desk operations and student inquiries.
- Maintained academic records and provided administrative support to the IT department.

- Assisted instructors with classroom setups, computer installations, and minor troubleshooting.
- Helped with scheduling, admission processing, and general office coordination.

Projects

Capstone: EasyRide – Ride-Sharing Web Application

Conestoga College | easyride-lime.vercel.app

- Built a full-stack MERN web app for ride-sharing with real-time ride matching and user auth.
- Technologies: MongoDB, Express.js, React.js, Node.js, JavaScript, Git.

SkyEscape – 2D Flappy Bird Clone

GitHub: github.com/autaracharya/SkyEscape

- Developed a C#-based 2D game using MonoGame with smooth animations and game physics.
- Technologies: C#, MonoGame, Visual Studio, Git.

Technical Skills

- MERN Stack (MongoDB, Express, React, Node)
- Flutter & Dart
- C# & MonoGame
- WordPress CMS
- JavaScript, HTML, CSS
- Git & GitHub
- UI/UX Design, Responsive Layouts

Core Competencies

- Full-Stack & Mobile Development
- Problem Solving & Debugging
- Team Collaboration
- Clear Communication
